

Earned Value Professional™ (EVP™) AACER International Certification A MARK OF DISTINCTION

EARNED VALUE PROFESSIONAL™ (EVP™)

AACE International's Earned Value Professional (EVP) certification program is designed to establish credentials for the Earned Value Professional. This certification program gives professionals a means to validate their skills and knowledge. EVP certification will distinguish you as an Earned Value Professional who has the knowledge and skills that impact the bottom line.

While many professionals do earned value management, until recently there was no way to effectively measure such capabilities - except through real-life

performance. AACE's EVP certification provides an exam and experience validation that lets employers identify those who meet the program's competency standards.

Earning a EVP is a mark of distinction.

What is an Earned Value Professional (EVP)?

A distinguished task force of industry experts, from both private and public sectors, assembled by AACE International created the EVP examination in 2005. In 2007, it earned accreditation by the Council of Engineering & Scientific Specialty Boards (CESB). The intent is to recognize specialists who meet a demanding set of earned value management criteria by a rigorous examination, experience, education and ethical qualifications. The EVP requirements reflect the sophistication of individuals in today's earned value industry and it fairly measures their knowledge, experience and adherence to best management practices. The Competency Model used to develop the EVP was based on the American National Standards Institute/Electronic Industries Alliance Standard 748, Earned Value Management Systems (ANSI/EIA-748-A).

EVP certification distinguishes Earned Value Professionals who have the knowledge and skills that impact the bottom line. AACE certification ensures a high quality standard.

AACE's certification experience is extensive. AACE has offered certification since 1976, and has other programs accredited by the Council of Engineering & Scientific Specialty Boards (CESB).

Recertification ensures continued expertise through work experience, continuing education, professional development, and active involvement in the profession.
